

# Introduction

Korcoin is a platform where you have the real power to manage your wealth. Our commitment is to build a coin with a strong focus on an open-source foundation. You will be the one to decide what you want to buy and also where and at what time you want to buy. You will have complete authority without any kind of restrictions.

The idea of the token is to create a way that the whole world can use one token which is korcoin. Transactions here are super fast, safe and easy as well.

The problem people are facing nowadays is that banks and governments decide how we as people must live our lives but now we have come up with the solution that is a token by the people and for the people.

A token with its multi-vendor website will be a peer-to-peer system.

# Introduction

Korcoin has its multi-vendor website which is korcoin.store where everybody who wants to sell or offer their services can join the multi-vendor website and place what they are selling. The only way to pay is by using korcoins. Our goal is to provide convenience and efficiency to clients, gaining loyalty as well as revenue. We are right now giving coins away for free.

The Korcoins will be free till **28** of January **2022** at **10pm**.

Everybody who contacts us by whats app **+5999-6921157** will get **5** dollars worth of crypto from us. It is like a modern airdrop. We ask our community not to do anything with the korcoin for **6** months until the korcoins store website is fully functional.

We hope korcoins will not decrease in value, the reason being that the multi-vendor website which we create can be used by all our community to buy and sell or get paid in Korcoins. We have a limited supply of **200** million tokens

By joining our korcoin community you will have freedom of doing business without anyone telling you what to do or charging you fees, you will be your boss. Now, what are you waiting for? Hurry up!
